The colonial making of contemporary international discourse

Thursday, 18 June 2020 10:00 (1h 30m)

These papers expose and unsettle the coloniality and racialisation behind common but underexplored Western discourses. How are binaries of colonial/ colonised articulated within and constitutive of ideas such as military victory, climate change in christian movements, international security, emerging powers respectively.

Track Classification: Colonial, Postcolonial and Decolonial Working Group
