Perspectives on and challenges to regionalism

Friday, 19 June 2020 12:00 (1h 30m)

A series of papers that explore regional scale developments in the global political economy and the key challenges to regional projects. The panel draws together state of the art research exploring European integration, Brexit and Europe's external relations, alongside work that looks to 'new' and comparative regionalisms.

Track Classification: International Political Economy Working Group
