Type: **Panel**

## **New Norms and Practices of Civilian Protection**

*Wednesday, 17 June 2020 17:00 (1h 30m)*

This IR2PWG panel investigates various aspects of intervention, from zonation in conflict management to gendered vulnerability, to ethical considerations in mass atrocity situations, as well as to existence of a corporate responsibility to protect. Covering a wide range of issues, which are also complementary when thought as part of a whole, this panel provides a critical point of view that goes beyond the state-centric approaches to intervention and civilian protection.

**Track Classification:** Intervention and Responsibility to Protect Working Group
