6. Emerging Trends and Issues in Drone Warfare

Thursday, 16 June 2022 16:45 (1h 30m)

This BISA War Studies panel analyses the global implications of Western drone technologies and drone strategies. As military drones spread to over 100 state actors and at least 50 non-state actors, the researchers on this panel help us to understand the broader implications of strategic, ethical, and operational norms established by Western drone deployments over the last two decades.
