Hybrid peacebuilding in Africa?

Wednesday, 21 June 2023 13:15 (1h 30m)

This papers on this panel use African examples to both critique and illustrate the very contemporary notion of hybrid peacebuilding. They examine the 'politics of scale' behind 'hybridity' in Madagascar, relations between local and international NGOs in Nigerian farmer-herder conflict, and the role of traditional authorities in hybrid peacekeeping. A final paper investigates how art, theatre, wrestling and ('high' and 'low') peacebuilding processes have all informed each other in South Sudan.
