Trends and Challenges in Online Extremism

Friday, 23 June 2023 15:00 (1h 30m)

Extremist and terrorist actors are increasingly operating online. These actors continue to adapt and outmanoeuvre counter-terrorism measures and content moderation policies. This panel examines the trends and challenges of online extremism from the migration of extremists from social media to gaming and alternate platforms, far-rights actors in Asia, to new techniques for understanding online extremist networks. As the line between online and offline becomes increasingly blurred, terrorist exploitations of online platforms challenge traditional conceptions of terrorism and counter-terrorism measures.
