## **Susan Strange @ 100: an enduring legacy for contemporary times**

*Thursday, 6 June 2024 09:00 (1h 30m)*

We are a group organizing a centenary celebration of the contributions of Susan Strange to IPE and IR. This event will be organized between the LSE and King's College, and we are going to run it just before BISA. We wish to organize a round table to celebrate the centenary of Strange's birth (well, really 101 years, but who is counting anyway!), and just over 50 years of IPE (yes, I know there is a debate about this, but just run with us on this one, because it works nicely!). People who are participating in the centenary event are included here.

**Track Classification:** BISA
