## **Military encounters II: creating and imagining CMS**

*Wednesday, 18 June 2025 10:45 (1h 30m)*

This panel is the second of two exploring diverse, messy and complex military encounters. Centring on the creating and imagining of Critical Military Studies, this panel urges possibilities to reimagine military encounters critically, creatively, collaboratively and illustrates how these encounters shape and bring into being, make and unmake, do and undo Critical Military Studies itself.
