Knowledge Politics I (Relationality and Coloniality)

Thursday 4 June 2026 13:15 (1h 30m)

This panel is the first of three examining knowledge politics around climate and environmental politics. It specifically interrogates knowledge politics across relationality and coloniality focusing on how knowledge is produced, what language is used in these processes and how we can allow for pluriversal accounts of the climate crisis.

Track Classification: Environment and Climate Politics Working Group
