Ask me Anything: IR journal publishing

Wednesday 3 June 2026 13:15 (1h 30m)

This AMA is your chance to pick the brains of the editors of six leading IR journals on matters large and small. Where do they stand on making research data open? Is AI going to turn the publishing world on its head? Why do desk rejects seem to be more common these days? Are there too many journals or too few? Whatever happened to the book review? Why did they decide to become an editor, and do they enjoy it? Ask them anything…except why they rejected that paper of yours two years ago!
